

EMC Atmos  
Last update 24/02/2013

**Requirements:**

Atmos Capacity Reporting Tool must be available in the Atmos Setup and it should be accessible via http client.

URL : <http://<<IP-Address of ACRT Node>>/capacity>

User must have access credential details to Atmos System management console as SysAdmin and TenantAdmin.

In order to access Atmos System Management Console, the URL is

[https://<<IP Address of Atmos System Management Node>>/mgmt\\_login/login](https://<<IP Address of Atmos System Management Node>>/mgmt_login/login)

**Please note: IP Address of ACRT Node and Atmos System Management Node is different.**

**Limitations:**

At present only single tenant in the Atmos installation is supported.
